Canadian Rockies Pioneer Passes

Tom Wilson is dead. Pathfinder, trail-blazer, hunter, trapper, prospector, Indian trader, wise adviser and dependable friend, oldest and most celebrated of Canadian Rockies guides, the last of the pioneers, Tom Wilson has gone to his Happy Hunting Grounds and if there were mountains, no deep blue lakes hidden by curtains of trees, no difficult passes to conquer, it will scarcely be Paradise to him. He has gone! We shall see him again.

His life work started as far back as 1851 when he went out with the Canadian Pacific exploring and surveying parties through the Rockies. In 1852 he set the foundations of his later fame with his discovery of Lake Louise and Emerald Lake, following it up by the blazing of the foot trail up the Yoho Valley in 1854.

In his own person he was history, the history of the western mountains. It was fitting that he should be present at the driving of the last spike on that fateful day of November 1885 that saw the completion of the Canadian Pacific trans-continental main line across the Dominion from the Atlantic to the Pacific. Nor was he the least of the great men who there assembled.

In 1884 he made his discovery of Lake Louise and while blazing a trail to that beauty spot; in 1893 he took his first party to camp at the base of

Mount Asanthe; in 1894 he cut out and started the old Indian trail from Field to Emerald Lake and blazed a foot trail to Wapta; in 1897 he took a party to the Yoho Glacier and the following year was guide to a party of 14 members of the Philadelphia Photographic Society to the Yoho Falls; in 1900 he blazed the first trail into Moraine Lake. His work was recognized in 1925 by a monument erected to him in the Yoho Pass.

Born at Bond Head, 40 miles north of Toronto, August 21, 1850, Tom Wilson was in his 78th year when death came to him. At the age of 15 his pioneer spirit sent him in quest of adventure and landed him at Sioux City, Ia., a then westerly post of civilization. Later he joined the North-West Mounted Police and was sent to Fort Walsh in what is now the southwest corner of Saskatchewan. To him there came rumors of the formation of the Canadian Pacific syndicate and of that body's intention to construct a railway through the unknown Canadian Rockies. Adventure beckoned, so he got his discharge from the force, trekked across the prairies to Port Benton in Montana and there met and joined the first survey party en route to Bow Gap, entrance to the Rockies. That was in 1881 and so began the series of adventures that were to link his name inseparably with the mountains.

He was a tall, a happy and a useful life. He had no enemies. His disposition was kindly; he was without any trace of self-awareness. Known and honored everywhere in the west, he had a host of friends all over the North American Continent and indeed all over the civilized world. A great Canadian and a fine man.

Train Service Changed Again

The train service on this division has undergone another change, this last one being a little more radical than the former ones—one train being changed from early in the morning over to the evening, this change occurring to the train operating to the East.

Trains to the East now go thru Stony on Sun., Wed. and Friday at 8:01 p.m.

Trains for the West leave here on Sun., Wed & Thurs. nights at 10:37 o'clock.

Farm Produce.

Old-timers in town are remarking on the large quantity of farm produce which is going thru town at the present time for shipment. All the town stores are actively engaged in the produce shipping business, a car a day, on the average, going from here. In other years, at this season, the bulk of these shipments went west; but this season the quantity is pretty well divided between each direction.

A Quiet Thanksgiving.

Thanksgiving Day, Monday last, was observed quietly here in town. The usual Thanksgiving dinners were not so much in evidence this year, owing to the fact that some of the local turkey-raisers had gone out of business—the prices which obtained for their poultry the past two years not paying them for their trouble.

If this condition keeps up, those gourmets who believe it's not Christmas without turkey and plum duff have something to worry over.

New Church at Wabamun.

The opening of the newly-constructed R. C. Church at Wabamun is billed for Sunday morning next at eleven o'clock. The clergyman to be in charge will be the Rev J. L. Stacey. It is expected a large company of worshippers will be present at the dedication.

Father Stacey will preach a Mission during the week, with devotions to commence 7:30 p.m.

The general public is invited to attend these services.

The work of construction was done by Mr Val Pailer Sr. of Stony Plain assisted by a competent staff.

Lad Injured.

Six year old Frank Burton was struck and knocked down by an automobile said to have been driven by Mike Schultz of Golden Spike, on Monday afternoon. The young escapee serious injury, a leg being pinned beneath a rear wheel.

Political Schools

Hon. Vincent Massey, president of the Liberal Federation of Canada, started something when he adopted an idea which has been in operation in Great Britain for a number of years and inaugurated the Liberal Summer Conference held at Port Hope, Ontario, in September. Ontario Conservatives quickly grasped the same idea and followed with a Conservative Summer School at Newmarket. Neither of these gatherings were of a partisan character, nor were they held under the authority of the official party organizations. They were round table conferences for the study and frank discussion of political, economic and social problems. No decisions were formally recorded, nor were resolutions adopted.

Inasmuch as the Liberal Conference was a Dominion-wide gathering, while the Conservative School was an Ontario gathering, and further as the Liberal Conference had been promoted some considerable time in advance of its meeting, Mr. Massey was successful in securing the attendance not only of leaders in the political and economic life of Canada, but men of standing and influence in Great Britain and the United States, including Sir Herbert Samuel, leader of the British Liberal party, and Mr. Moisy, the chief of the Roosevelt "brain trust." The Liberal Conference, therefore may be regarded as an indication of the character of these gatherings.

That conference was attended by many Conservatives and by supporters of the C.C.F., as well as by Liberals. Conservative views and Socialist views were just as freely expressed as Liberal views. As a matter of fact, the Liberal Conference and the Conservative School exchanged speakers, while men of Socialist views and leanings addressed both Conference and School. In a word, it was a coming together of men and women keenly interested in the current problems of the day as they affect Canada and the world of which Canada constitutes a part. They came together to study these problems, to obtain expert opinion in regard thereto, to examine and criticize suggested remedies and policies, and to frankly and freely exchange views thereon.

It was a school of citizenship in the highest and truest sense designed to engage some of the best thought of the country in a searching analysis of existing conditions and of suggested remedies designed to overcome the weaknesses and evils existing in our economic life and social order, and the part which governments must take in removing such evils and promoting the continued onward march of civilization and a progressive betterment in our whole standard of life and living.

So successful indeed did these gatherings prove to be, that nothing but praise has been voiced by the press of Canada regardless of political affiliations. These conferences or schools are to be continued next year, and the probability is that such gatherings will be organized to be held in different sections of the Dominion in the near future, and the opportunity may be afforded to a much larger number of earnest citizens to attend and participate in them.

Equally important, perhaps even more important, is another development arising out of these initial gatherings, and that is the formation in many centres across Canada of Discussion Clubs in which men and women deeply interested in public questions and matters affecting the public welfare are meeting and giving earnest heed and study to such matters.

Nothing but good can result from such study carried on quite apart from the partisan controversies and excitements of election campaigns. Speakers before such Discussion Clubs know that every word they utter will be fully weighed, that the facts they submit will be open to investigation; that the suggestions they advance will be minutely examined to determine their soundness, practicability and worth. Special pleading will be at a discount; emotionalism will not convince; but in the freedom of round table discussion, and in what might be termed the clash of intellects and authoritative opinion, knowledge will be advanced.

The inevitable result of such Schools and Discussion Clubs must be to raise the tone of public discussion in Canada. Political platforms of the future will have to be drafted to be something more than mere vote-catching devices; if they are not they will fail to impress and attract the voters. Members of Parliament and of the Legislatures will find it increasingly necessary to keep themselves well informed, fair and convincing in debate, rather than merely concerned in gaining some party advantage. There will be a more general recognition of the fact that politics, after all, is not something ignominious and to be shunned, but rather that politics is, in fact and reality, the science of government.

It is to be hoped that this movement for a better educated, more enlightened citizenship will spread far and wide throughout Canada; that it will be encouraged and promoted by all political parties and groups, and that people of every variety and shade of political and economic thought will gather together in earnest study and frank but friendly discussion of what, in the final analysis, are the common concerns of all, in which the interests of all are inextricably bound together.

Home Coming Back

The return of Dobbin to his former place in the commercial structure is indicated by the remodelling in the village of Murrillo near Port Arthur of a garage into a blacksmith shop the same having formerly been turned from a blacksmith shop into a garage.

Sales of automobiles in Bolivia have been increasing recently.

The Height Of Idleness

A very wealthy woman has lived in a well-known woman's hotel in New York for many years. Every morning she comes downstairs, takes a chair in the lobby and sits there all day. And that's all she ever does.

Fire engines equipped with caterpillar wheels are being used as snowplows in the streets of Vienna, Austria.

Bowel Complaints of Children During the Summer Months

Mothers should look well after their children during the hot summer months. Despite all they can do the children may be seized, at any time, with diarrhoea, dysentery, summer complaint, or other forms of bowel trouble.

There is a safe remedy in Dr. Fowler's Extract of Wild Strawberry; a remedy that has received the endorsement of the leading physicians of Canada during the 85 years it has been on the market. Don't experiment. Get "Dr. Fowler's" and be on the safe side.

Secure Much Data

Scientists Return From Long Sojourn In The North

"Aurora borealis flashing directly overhead at Fort Rae never came lower to the earth's surface than 55 miles distance during their observations, Dr. J. M. Stagg, leader of the party of British scientists who have spent the last 13 months at Fort Rae, North West Territories, studying northern weather conditions, made this statement.

Dr. Stagg flew from McMurray after coming out by river boat to superintend the transportation of some six tons of valuable instruments used by the scientists in their investigations. Five other members of the party came out some time ago.

Until the large volume of data gathered during the 13-month stay in the north had been studied it was impossible to state the result of their observations, Dr. Stagg said. Some 15 months would be required before the data could be played in publishable form.

YOUNG MOTHERS

Don't experiment with children's colds. Treat them as you would your own mother did—externally. No dosing! Just rub throat and chest with...

VICKS VAPORUB
PROVED BY 2 GENERATIONS

Royal Flattery

The Prince of Wales is credited with one of the neatest and prettiest compliments heard recently. One of the most charming women in society, a peeress, remarked to H.R.H.: "I wish I could go into business. I should like to decorate houses." "By living in them, Lady—?" asked the Prince.

AFTER ACCIDENT SHE PUT ON WEIGHT

Kruschen Took It Off Again!

A woman sends the following account of the consequences of an auto accident in which she was involved:

"A year ago I had a very bad automobile accident, which left me more or less a cripple. Having to lie in bed so long, and being unable to move, I began to put on flesh. When I was able to walk a little again, I found I was 144 lbs., and being just under 5 feet you may guess how I was placed. So I thought I would try Kruschen Salts, and I must say they have done me a lot of good in every way—chiefly in keeping my weight down. In three months I lost 6 lbs. Then I left off taking the Kruschen, and I soon went up to 142 lbs. again. So at once I got more Kruschen, and am again steadily reducing. My weight last month was 134 lbs." (Mrs.) W.H.M.

Kruschen combats the cause of fat by assisting the internal organs to perform their functions properly—to throw off each day those waste products and poisons which, if allowed to accumulate, will be converted by the body's chemistry into fatty tissue.

STEWED CUCUMBERS

Four large cucumbers; 1 teaspoon salt; ½ teaspoon pepper; 1 tablespoon butter; ½ cup sweetened condensed milk; 1 teaspoon sour; ¼ teaspoon prepared mustard; juice of ½ lemon.

Pare cucumbers and cut in slices ¼ inch thick. Remove seeds from each slice. Place in boiling water and cook 15 minutes or until tender. Drain. Add salt, pepper and butter. Return to fire. Cover and cook for five minutes. Blend together sweetened condensed milk, flour, mustard and lemon juice. Add to cucumbers. Cook until mixture thickens, stirring constantly. Serve hot. Serves six.

For the first 33 weeks of 1933, ending August 17, the number of hogs graded in Canada was 1,999,486.

The horse in his attitude to man differs from all other classes of stock in that he produces energy not food.

Advocates More Production

Sir Herbert Samuel Out Of Sympathy With Present Policy

Increased world consumption of commodities, not decreased production, should be the aim, Rt. Hon. Sir Herbert Samuel told a Canadian Club luncheon audience at Ottawa. With the policy of decreased production he had no sympathy.

"Surely this is a mad policy," he said. "Statesmanship today is on the wrong lines." He indicated the path, which, he felt, would lead toward prosperity. Production should be encouraged, consumption stimulated, trade channels should be opened, currency stabilized and peace and tranquillity developed.

New Source Of Revenue

Umbrellas Left On English Railway Trains Loaned To Passengers

The joke about the borrowed umbrella is a very ancient one, but the Southern Railway in England, is turning it to serious account. Thousands of umbrellas left by careless travellers come to a railway company in the source of a year. Arrangements are in hand whereby passengers on rainy days will be able to borrow these forgotten gamps at certain suburban stations on production of their season ticket and a payment of twopenny.

Electricity Output Higher

An increase of 11.5 per cent. in electrical energy produced in Canada in August as compared with July was shown in returns collected by the Dominion Bureau of Statistics. On the other hand, the export figures were lower indicating a greater use of electricity in Canada.

Shawki Bey, former poet laureate of Egypt, has died at Cairo.

Longest Lived Animal

Tame elephants have lived for over a century—wild elephants probably live 150 years or more. Mystery shrouds the end of these great animals, who seem to disappear without leaving a single clue to the treasure hunters who seek their valuable ivory.

Sailor Has Two Mascots

Norwegian Sailing Round World With Dog And Cat As Crew

With about 12,000 miles of lone sailing behind him and many thousands of miles more in front of him if he carries out his plan to cross the Pacific, Capt. Al. Hansen, Furvik, Norway, landed at Toronto recently in his 36-foot Norwegian pilot boat after sailing from Bergen 15 months ago.

Capt. Hansen, after clearing Bergen, touched some English and European ports and then sailed to the Canary Islands. From there his longest run was to Miami, Fla., which he made in 43 days, averaging nearly 100 miles a day.

His dog, Mate, and cat, Sailor II, comprise the crew. Capt. Hansen left for Halifax and later hopes to make for Africa.

For Creamed SOUPS AND SAUCES

If YOU have not tried St. Charles Milk you will be surprised at the improved flavor it gives to cream soups and sauces. It is handy and economical to use and with it you can make hundreds of tasty dishes that you and your family will enjoy.

Always ask for St. Charles by name and then you can be certain that you are obtaining the best evaporated milk.

Bird Banding In Canada Provides Valuable Information In Tracing Movements Of Wild Life

The economic importance of wild birds and their relation to man's welfare is being more widely recognized, and by bird banding the store of knowledge of their movements and habits is gradually being extended. In order to take proper steps toward conservation, by the enactment of good game laws, properly located bird sanctuaries, and other means, it is essential that as much exact scientific information as possible be available concerning all species of native wild birds.

Scientific bird banding as a means of studying and solving the many and varied problems relating to the migration, range, breeding grounds, and general life histories of wild birds is conducted in full co-operation between the National Parks Service of the Department of the Interior, Canada, and the United States Bureau of Biological Survey at Washington, D.C. Most of the banding work is done by voluntary co-operators throughout Canada and the United States.

The general public is urged to aid in this work by watching for bands on the legs of any birds that may come into their possession and to report the finding of such bands to the Commissioner, National Parks Service, giving the number on the band, the date on which the bird was taken, as well as the locality, and whether the bird was killed, found dead, or captured alive.

All official bands are aluminum or copper and are inscribed with a serial number and with a letter designation. There is reason to believe that each year, many bird bands are recovered, but for various reasons not reported to the Department. Recently, official bird bands recovered from wild birds have been found hanging on nails, strung together as necklaces used as toys by children, and, in many curious places in wilderness and civilized surroundings.

Bird banding may be carried on only under Dominion permit and none but official bands may be placed on wild birds. Full information as to the manner in which bird banding is being conducted will be gladly furnished persons who are interested, upon application to the Commissioner, National Parks Service, Department of the Interior, Ottawa.

Radio Stations Guide Ships

Thousands Of Direction Cues Are Answered Every Year

An instance of the work done by Canadian government wireless stations in guiding North Atlantic shipping is provided by the Chebucto Head direction-finding station at the entrance to Halifax harbor. A yearly average of 4,000 to 5,000 calls from ships off the coasts are answered by this station. Since its establishment in 1917 the number of wrecks along this section of the coast has greatly decreased.

Located nine miles from Halifax, the Chebucto Head Station was erected by the Department of Marine for the purpose of giving bearings to ships and handling commercial messages. A staff of five maintains 24-hour service.

Other stations are located at Sable Island, St. Paul, Cabot, Yarmouth, Red Head, N.E.B., Cape Race, Nfld. and Father Point, Que. Operators are transferred at one or two year intervals.

No Cause For Pessimism

Conditions Bound To Improve If Canadians Retain Confidence

There is a present danger that there may be new wave of pessimism sweep over the people, and especially in the West, because conditions in the farming community have not improved up to expectations. There is absolutely no cause for any such sentiment. In one way Canadians can make the Dominion self-sufficient, and that is by the promotion of confidence, which is a species of "nationalism" in which there is nothing but good.—Regina Star.

Frost has damaged some early crops in Argentina recently.

W. N. U. 2015

Canada's Maple Trees

Not Only Ornamental But Have Great Monetary Value

The maple tree, the leaf of which is the national emblem of Canada, is not only a notably fine ornamental tree, but also has a unique monetary value apart from its value as lumber, for the production of maple syrup and maple sugar in Canada this year was 1,262,315 gallons of syrup valued at \$1,559,629, and 5,785,130 pounds of sugar with a value of \$469,719, the combined value being \$2,029,341. Most of the maple syrup and maple sugar produced in Canada comes from the Province of Quebec, with Ontario in second place. Small quantities are produced in Nova Scotia and New Brunswick. These products are derived from millions of maple trees which are tapped in the month of March each year.

Annual Loss Is Heavy

Destruction By Rabbits In Australia Equals National Debt

Pointing out that Australia is now conducting its annual campaign to exterminate rabbits, Vice-Consul R. H. Hunt calls attention to the havoc wrought in the Commonwealth by this prolific pest.

It is estimated, he points out, that the destruction caused by the rabbit amounts to between 20 and 40 million pounds sterling annually, a sum about equal to the country's national debt. Not only is the loss computed on the damage done to crops, but on the reduced carrying capacity of the land, the loss of stock in drought years caused by the rabbits eating out the native herbage and bush which normally would be sustaining for stock, and the loss of water in dams and other conserves through banks weakened by burrows.

So destructive have rabbits been in parts of Central Australia that they have destroyed the native herbage, causing large areas to become windswept wastes.

A fairly substantial export trade in furs and carcases has been developed, the report shows. During the fiscal years 1931-32 exports from the Commonwealth amounted to 7,892,000 pairs, valued at \$2,230,000 and 7,863,000 pounds of skins, worth \$2,378,000.

Rabbits and hares were introduced into Australia from England in 1859. By the end of the nineties they had invaded every section of the Commonwealth.

The Weekly Newspaper

Is Taken Home And Read By The Whole Family

An Alberta weekly newspaper notes that when a lot of country people in its province go to the post-office for their mail they litter those offices with a lot of mail material, but never with the newspapers they receive. It notes that circulars and such matter are consistently and abundantly consigned to the floor, but that newspapers are accorded infinitely greater respect. They may be consigned to kindred fate later, but never until after they are taken home and read by the whole family, including hired man.

This is true, as it is also readily explainable. The newspaper carries much of interest and value. It mirrors the great world without. It is not only a welcome visitor, but a veritable institution in the home. Furthermore, its cost is relatively trivial.—Regina Leader-Post.

Wines, liquors and cigarettes sold after dark in Bratislava, Czechoslovakia, are now subject to a special tax for the benefit of the unemployed.

Western Provinces Account For More Than Half Of Acreage In Canada Devoted To Oats

The cultivation of oats is of more recent date than that of wheat and barley. While the origin of the cultivation of wheat can be traced in all probability to a warm climate and that of rye to a cold climate, oats were found occupying an intermediate position. It is not possible to find any record of their use by the ancient peoples of Egypt, Palestine, Greece, Rome, India or China. Probably oats were cultivated at an early date by people who inhabited east-central Europe, and some historians point more definitely to Tartary in Western Asia as the probable place of their first cultivation. Oats were less important than wheat, barley or rye in the early development of southern Europe, but came into much greater use with the civilization and expansion of the central and northern (temperate) portions of the continent. The crop, being particularly suited to the cool, moist climate, became a leading cereal.

Having many other uses besides that of food for man, the oats crop has continually expanded in natural sequence of crop cultivation. At first only such crops were grown as would serve for human food and natural meadows provided sufficient forage for domestic animals. With increasing population more and more ground was devoted to the production of cereals for human consumption. The value of land rose and natural pastures were broken up. Other crops were grown as food for livestock, and thus the use of fodder crops, like oats, has become an increasingly important part of husbandry, especially in temperate regions.

On the basis of acreage and tonnage produced, oats rank second only to wheat. In 1932 the acreage of wheat in North America was 82,400,000 acres and yielded 1,164,000,000 bushels, while in Europe, excluding Russia, 85,000,000 acres produced 1,483,000,000 bushels. Oats sown in Europe on 54,300,000 acres yielded 1,688,000,000 bushels and in North America from 42,200,000 acres 1,828,000,000 bushels were produced. This made 2,648,000,000 bushels of wheat from 168,300,000 acres and 3,456,000,000 bushels of oats from 96,500,000 acres. In Canada oats weighs thirty-four pounds to the bushel and wheat sixty pounds. The United States bushel of oats is thirty-two pounds.

While the area sown to oats is considerably less than the area sown to wheat in North America and Europe, production of oats, in bushels, exceeds that of wheat by about 800,000,000 bushels.

GEYSERS AS SOURCE OF ENERGY: AN ITALIAN PROPOSAL

Our photograph shows a new geyser which has just made its appearance in the borax-bearing district of Lardello, in the Val di Cembra, Italy. The Italians are considering a suggestion that it should be used for electrical energy for the railways.

000,000 bushels due to higher yields per acre. On a tonnage basis, of course, the production of wheat exceeds that of oats by a considerable margin.

Oats are produced over a wide area but heaviest production is found in the middle western areas of the United States, Canada, the United Kingdom, Germany, France and Russia. These six countries produce about seventy-five per cent. of world production of oats.

The nature of the disposition of the world production of oats is indicated by the fact that although world production amounts to about 4,500,000,000 bushels, world trade in oats amounts to only about 100,000,000 bushels, or slightly over two per cent. of production. Therefore, the great bulk of world production of oats is consumed at or near areas of production.

The chief use of oats is as a feed for livestock. Oats are the standard feed grain for horse and, alone or in combination with other grains, are used as a feed for cattle, sheep, hogs and poultry. In spite of a high percentage fibre content, oats are relatively high in protein and fat. Oats rank with wheat in protein content and are higher than wheat and barley in fat content.

The area sown to oats in Canada in 1932 amounted to 13,148,000 acres compared with an area of 27,182,100 acres sown to wheat; 3,757,000 acres sown to barley and 174,800 acres sown to rye. In other words, of the total area sown to the four leading cereal crops 29.3 per cent. was sown to oats.

According to the estimate of 1932 cereal production, production of oats in Canada amounted to 391,561,000 bushels compared with wheat production of 428,514,000 bushels, barley production of 80,773,000 bushels and rye production of 8,938,000 bushels. Converting the foregoing production figures to a tonnage basis, total production of the four cereals amounted to 21,700,464 tons of which 6,656,500 tons or 30.7 per cent. consisted of oats.

Reports to the Dominion Bureau of Statistics show 33.3 per cent. of 1932 acreage sown to oats in Saskatchewan, 20.6 per cent. in Alberta and 11.2 per cent. in Manitoba. The prairie provinces accounted for 65.1 per cent. of the total Canadian acreage devoted to oats in 1932. Ontario and Quebec had 17.8 and 13.1 per cent. respectively. The balance 4.0 per cent. was distributed among the Maritime provinces and British Columbia.

It is noted that there is a tendency toward decreased consumption of oats in Canada in recent years. Many causes have contributed. One of the most important factors in the decline has been the introduction of power machinery in western Canada. During the years 1924 to 1928 or 1929, the tractor displaced the horse to a considerable extent especially in regions where oats are not considered a favorable crop. The tractor not only displaced the horse from the farm, but in many cases relegated the horse to a pasture diet. It is probable that the number of horses resident in cities has also decreased in recent years owing to the mechanization of delivery systems. Further, the use of oats in Canada has, no doubt, been affected by the increase of feeding of barley to livestock in efforts to promote the use of barley as a feeding grain.

During the past seven years the United Kingdom has imported an average of 23.4 million bushels of oats per year. The Canadian share of this trade may be estimated at about 4.0 million bushels or slightly over 20 per cent. of total imports to the United Kingdom. During the past seven years, Canadian exports of oats have averaged 11.1 million bushels per year. Consequently it would appear that the United Kingdom has absorbed slightly over 40 per cent. of total Canadian exports of oats during the seven years.

A plea is being made in Scotland for a reduction in radio license fees to the unemployed.

Harvests in Mexico this year have been better than expected.

DOLLFUSS HAS NARROW ESCAPE FROM ASSASSIN

Vienna.—The step-grandson of an emperor's dentist, wielding a dainty pearl-handled revolver, came within an ace of killing Chancellor Engelbert Dollfuss and plunging Austrian and European politics into new and more dangerous confusion.

As it was, however, the two bullets from the gun of Rudolf Dertl, a former corporal in the Austrian army, only grazed the chancellor's left breast and wounded him slightly in the left arm. Dollfuss, after receiving treatment at a hospital, went home within an hour.

Socialist newspapers headlined the accusation that Dertl was a Hitlerite, while, on the other hand, the Dollfuss newspaper Westblatt identified him as a member of the Schutzbund, the dissolved Socialist military organization.

Whatever Dertl's political camp, however, his two bullets were water on a duck's back as far as the diminutive Dollfuss was concerned.

A few hours after the attempt, the little chancellor—four feet, 11 inches tall—was standing in his pyjamas at home delivering a nation-wide address assuring the Austrians he was still up and fighting.

Dollfuss thanked God for the fortunate outcome of the attempt on his life, coupling this with an expression of firm determination to proceed with his patriotic mission.

He explained that he took the occasion to make the speech so as to shut off any exaggerated reports of his injury which might circulate.

"That was a clever move," was the comment of the chancellor as he left the hospital to return to his home.

The attack was staged at the entrance to the parliament building. As Dollfuss approached, Dertl moved up, apparently with an intention of handing him a manuscript. Police intervened, however, and seized the document. Thereupon, the former corporal stepped back a few paces, drew his gun and fired.

The chancellor was rushed to the hospital.

The officers began rounding up political suspects, leading to the belief in some quarters that drastic action against both the Nazis and the Socialists was impending.

Fascist Party Being Developed in England

Young People Studying Movement States Hon. Herbert Greenfield

Calgary, Alberta.—Within three or four years at the present rate of development, England would have a Fascist party that would be a power to be reckoned with, Hon. Herbert Greenfield told the young men's section of the board of trade. Mr. Greenfield was former general manager for Alberta in London, England.

Unemployment and economic pressure is driving England's youth into the ranks of the Communist and the Fascist, Mr. Greenfield declared. The younger generation is giving profound study to conditions and problems and new movements are springing up.

British War Debts

Reported That U.S. Government Plans To Make Reductions

New York.—The Washington correspondent of the Journal of Commerce says it is indicated that the United States government will embark upon a new monetary policy that will enable foreign debtor governments to conduct appropriate negotiations looking to settlement of their obligations.

It is further manifest, the correspondent reports, that a substantial scaling down of the British debt must be effected. "The chief domestic problem being as to how this may be accomplished without bringing important adverse repercussions to the Roosevelt administration."

American Aeroplanes

American aeroplanes were recently sold to Switzerland's leading air transport company.

W. N. U. 2015

Lake Carriers Want Coastal Laws Amended

Claim Higher Rates And More Wheat Shipments

Ottawa, Ont.—The lake carriers are making a vigorous effort to persuade the Federal Government to proclaim the amendment to the coastal laws enacted at the last session of parliament.

It is being urged that unless higher rates can be obtained on the Great Lakes and a larger volume of wheat made available for Canadian owned ships there will not be a solvent company left in the business this fall.

Under the amendment the transshipment of wheat at Buffalo would be stopped, unless carried through-out in Canadian bottoms.

The lake carriers have met a favorable reception at Ottawa. They desire the amendment to be proclaimed now in order that they will reap the maximum advantage on the autumn wheat trade. Apparently most of the cabinet ministers are favorably disposed, but the final decision, it is learned rests with Premier R. B. Bennett.

He is said to have requested numerous memoranda giving both sides to the case but has not yet indicated what will be done.

Paris Papers Criticize French Foreign Minister

Making Too Many Concessions To Germans Is Complaint

Geneva, Switzerland.—Criticism appearing in Paris newspapers to the effect that Joseph Paul-Boncour, the French foreign minister, was making too many concessions to the Germans, especially regarding the size of the French army, was said to have decided him to go to Paris and consult with the cabinet.

Revelation that a French statesman had conferred with the secretary of Germany's ministry of propaganda, Paul Joseph Goebbels, was said to have excited some of the French leaders.

M. Paul-Boncour told the assembly of the League of Nations that the four-power European peace pact of Great Britain, France, Italy and Germany strengthens the Locarno pact.

A Strange Phenomenon

Lake Superior Village Inundated By Action Of Waves

Rosport, Ont.—A wall of water, believed to have been thrown up by tremors, under Lake Superior, flooded storehouses and carried away fishing docks at this fishing hamlet. Bay waters receded more than 100 feet, leaving boats moored to the docks suspended in the air. On the backwash, buildings along the bay shoreline were flooded and considerable damage done. The unusual phenomenon occurred several times.

Peculiar action of the water left the lake bottom fully exposed and docks and boats high and dry. Each succeeding wave rushed back to the shore, breaking inland for some considerable distance. No lives were lost.

Rosport is situated 100 miles north of Port Arthur.

British Steel Plants Busy

News From Sheffield Regarding Business Is Cheering

London, Eng.—Cheering business news came from the United Kingdom's heavy industries, particularly from Sheffield, centre of the steel trade.

C. J. Walsh, just installed in the historic office of master cutler, of Sheffield, reported plants in that city are producing more steel than in pre-war days and that the monthly output is 27,000 tons more than a year ago. A considerable share of this improvement, Walsh said, was a direct result of the tariff on imported steel. He added Sheffield's newer products such as magnets, razor blades and stainless steel had made great strides during the last year.

Fewer On Relief In B.C.

Victoria, B.C.—Number of persons on relief in British Columbia decreased by 43,347 from the end of March to the end of August, dropping from 132,538 to 89,191. The decrease in August figures from those of July was 2,491, from 96,675 to 89,184.

ONTARIO'S ATTITUDE

Hon. W. G. Martin, Minister of Public Welfare in Ontario, who stated that there is very little likelihood of Ontario adopting in the near future any policy of sterilization for mental defectives.

U.S. Unions Backing Canadian Rail Workers

Full Support Pledged In Dispute Over Wage Cut

Cleveland, Ohio.—A. F. Whitney, chairman of the Railway Labor Executives' Association, said the organization's full support had been pledged to Canadian railroad workers in their campaign against a second 10 per cent wage reduction.

Representatives of the Canadian railroaders conferred with rail-labor officials in his office on June 1. Mr. Whitney said, and at that time a resolution was adopted providing all legal expenses of the Canadian anti-wage reduction campaign would be paid by the railway labor unions and any other needed support would be given.

The resolution, Mr. Whitney said, provided the association should "go as far as possible" in aiding the workers of the Dominion, many of whom, he said, were receiving wages approximately 17 1/2 per cent lower than rail workers in the same capacities in the United States.

The rail unions have approximately 14,000 members in Canada, Mr. Whitney said.

Dismissed By Nazis

Grandson Of Mendelssohn Loses Position In German University

Hamburg, Germany.—Professor Albrecht Mendelssohn Bartholdy, grandson of the composer Mendelssohn has been dismissed from the University of Hamburg and the Institute of Foreign Affairs, of which he was head.

Famous in international law, Bartholdy was dismissed because of his Jewish nationality. He was a pioneer in agitating against the claim of Germany's sole war guilt. His grandfather's music is no longer played nationally.

Gerhart Esner, a noted Jewish professor of civil law decorated in the war, also was dismissed.

SUZANNE SHOWS HOW IT'S DONE

Here we see Miss Suzanne Lenglen, famous French lawn tennis star, demonstrating a stroke in lawn tennis to some young French enthusiasts in London. She is seen wearing an unusual creation which consists of a frock with which knickers are combined.

Will Balance Budget

Conditions In Britain Show Good Improvement

London, Eng.—Neville Chamberlain, Chancellor of the Exchequer, told a group of bankers Britain's budget would be balanced this year and that undoubtedly the situation in the United Kingdom offered a more favorable prospect than it did a year ago.

"There is no sign of an approaching doom," said Mr. Chamberlain, "but on the other hand in almost every direction we see indications of definite progress and a growing sense of the confidence that this is no mere flash in the pan, but the beginning of a permanent advance."

The Chancellor said it seemed likely Great Britain ultimately would return to the gold standard.

"But," he continued, "we in this country cannot consent to link our currency to gold until we are certain that the conditions prevailing are such as will permit the gold standard to function efficiently."

Obligation Rests With Four Western Provinces

Dominion Government Has No Control Over Refunding Timber Dues

Ottawa, Ont.—The obligation to refund timber dues rests with the four western provinces of Manitoba, Saskatchewan, Alberta and British Columbia, and not with the Dominion, under the terms of a judgment handed down by the supreme court of Canada.

In its judgment the court dealt with a reference made to it by the Dominion Government. The reference developed from a dispute between the Dominion and the western provinces concerning dues paid by home owners for the privilege of cutting timber on their lands for commercial purposes.

U.S. Veterans Parade

Col. Lafsche Witnesses Imposing Spectacle In Chicago

Chicago.—Like a moving human spectrum, dealing in color, awe-inspiring magnitude, the American Legion marched 160,000 strong down broad Michigan boulevard.

Then the grand parade of American "Buddies" who did their part in the Great War, along with their women's auxiliaries swung into the Soldier Field amphitheatre to be reviewed by an assemblage of distinguished persons, Col. L. R. Lafsche, Canada's deputy minister of defence, among them.

The march past, which lasted for 10 broken hours, was the lone legion activity on the 15th annual convention program.

Keeping Within Estimate

Toronto, Ont.—Hon. E. A. Dunlop, Ontario provincial treasurer, has announced the government's plan to cut down controllable ordinary expenditures by \$4,000,000 had been carried to a successful conclusion and the ordinary expenditure for 1933 would be well within the estimate of \$34,950,000.

CANADA NOW ON THE ROAD TO RECOVERY

Ottawa, Ont.—Reasons for the opinion Canada is now on the road to recovery are set forth in a statement with which Prime Minister R. B. Bennett will launch the campaign in connection with the refunding loan which will be offered to the public this week.

"With due precaution against unwarranted opinion I think I may say that in Canada we are now on the road to recovery," the Prime Minister declares.

"The events of the past six months appear to demonstrate with increasing clarity that the downward trend has come to a definite stop and that an upward trend is now in progress."

Mr. Bennett turns to the latest statistical reports on industry and trade. These records, he believes, show that Canada's general economic condition reached its lowest point during the month of February last, and that "today we are definitely above that level following a recovery which has been gradual but persistent and unmistakable."

Available records of industry since April show that 116,000 have been added to the payroll while estimates based on these partial reports place the entire increase in employed persons since that date at 246,000.

External trade figures are also offered as proof of the upswing. Both exports and imports have increased and Canada's surplus of exports over imports during the 12 months ended with August of this year totalled \$114,000,000.

"All these facts and figures I think may be quite safely taken as signposts on the road to recovery," the Prime Minister declares.

Farmed In Peace River

Former Westerner May Be Scottish National Labor Candidate

Kilmarnock, Scotland.—Kenneth Lindsay, who farmed in the Peace River district of Alberta thirty years ago while studying emigration, may be the National Labor candidate in the Kilmarnock by-election. Lindsay has also lectured in Canada and he was the first Labor president of the Oxford University.

The by-election is due to the appointment of Craigie Aitchison as lord justice-clerk. The only National Laborite elected in Scotland in the last general elections. He had a majority of 7,036 in a straight fight with Labor.

Movies In Churches

Bishop Of London Has Approved Showing Religious Pictures

London, Eng.—With the approval of the bishop of London "Movie" films are to be shown in churches and mission halls throughout his diocese. The films will include scenes from the life of Christ, the last days of Livingstone, the martyrdom of Becket and incidents of missionary life. A travelling preacher will go round with the movies, and in due time it is hoped to elaborate this scheme by the introduction of a series of "talkies."

Supervised Farming

President Beatty Of C.P.R. Favours This Idea

Winnipeg, Man.—Supervision of farming in western Canada is essential to the improvement of farm practices generally and is a necessary incident to any federal immigration scheme in the opinion of E. W. Beatty, K.C., president of the Canadian Pacific Railway. "Farm management, for many years to come, will, I think, be an important factor in the success of farming operations in Manitoba, Saskatchewan and Alberta," Mr. Beatty said.

Think Port's Future Assured

Churchill, Man.—With the restoration of normal crops the future of Churchill is assured, grain men of this northern Manitoba port believed. Despite a temporary setback received when lower lake freight rates were put into effect, sailings equal to last season's record number, carried a greater quantity of grain to overseas ports.

Hansen's Corners.

Threshing is about completed in this district, and farmers are waiting for Mr. Bennett to put wheat up to \$1 a bushel.

A local thresherman upset his machine on the road the other day; but no damage was done, except to the owner's nerves.

Hansen's Corner folk are arranging for a big Harvest festival.

The Coal Co. is moving its machinery down to the mine, to start soon the wheels of industry moving.

A well known Corners farmer who has been spending some time in the East, is expected home soon, and a big reception is planned.

Visiting hunters are said to be getting local ducks to the limit.

The basketball match between Mewassin girls and the Hansen girls seems to be off.

Unlicensed Radio Sets.

A return made to the Radio branch of the Dept. of Marine shows that the total for licenses for receiving sets in Alberta is 25,164 for 1933, as compared with 23,767 for the same period last year.

Mr. W. G. Allen, the radio inspector, is said to be about to make his rounds. Edmonton radio branch is in possession of a list of 637 persons operating radio receiving sets who have failed to take out licenses this term. The licenses were due for renewal April 1. The 6 months which have elapsed since that date is considered ample time to secure licenses. Those neglecting to get a license are liable to a fine of \$50 and to have their receiving equipments confiscated.

MORTGAGE SALE OF FARM PROPERTY.

Pursuant to the directions of the Registrar and by virtue of the Power of Sale provided by "The Land Titles Act" under a certain mortgage which will be produced at the time of the sale,

There will be offered for sale by public auction at the Post Office, in the Village of Stony Plain, in the Province of Alberta, on

Sat'day, the 28th October, 1933

at the hour of 2.30 o'clock in the afternoon, the following property, namely:

The North East Quarter of Section 22, Township 53, Range 1, West of the 4th Meridian, containing 160 acres, more or less, excepting those portions described in Certificates of Title No. 4381 and No. 25 E 32, containing 4 acres, more or less, excepting 1.10 acres for road as shown on Plan 2373 Y, excepting thereout all mines and minerals, and

The West Half of Section 23, in said Township and Range, containing 80 acres, more or less, excepting thereout of the South East Quarter, 1 acre, more or less, as described in Certificate of Title No. 111 G 12.

Terms of sale to be ten per cent. cash at the time of the sale and the balance according to the terms and conditions to be made known of the time of sale or upon application to the vendor's solicitor.

The above property will be offered for sale subject to a sealed successful bid and free from all encumbrances, save taxes for the current year.

The vendor is informed that the above property is situated about 23 miles from Stony Plain, at which point is the nearest post office and elevator. The nearest school is approximately 1 mile from the land.

The soil is a chocolate loam with a clay subsoil.

The land contains approximately 450 acres of which approximately 325 acres have been under cultivation. An additional 125 acres could be broken. There is a creek running through the property and also one good well. The land is fenced with three strands of barbed wire.

The following buildings are on the land: 6 rooms, 2 story frame house with shingled roof, 2 frame granaries, 1 log granary, 2 log barns, log granary and hog house.

For further particulars and conditions of sale, apply to Messrs. Newell, Lindsay, Emery & Ford, Chartered, Canada Permanent Building, Edmonton, Alberta.

Dated at Edmonton, in the Province of Alberta, this 11th day of September, 1933.

"A. T. KINNLAIRD", Dep. Registrar

GOVERNMENT OF THE DOMINION OF CANADA 1933 REFUNDING LOAN

The Dominion of Canada offers for public subscription

Two-year 3½% Bonds, due 15th October, 1935

Issue Price: 99.50 and accrued interest, yielding 3.75% to maturity.

Six-year 4% Bonds, due 15th October, 1939

Issue Price: 99.00 and accrued interest, yielding 4.19% to maturity.

Twelve-year 4% Bonds, due 15th October, 1945

Issue Price: 98.50 and accrued interest, yielding 4.38% to maturity.

Principal payable without charge in lawful money of Canada, at the office of the Minister of Finance and Receiver General of Canada at Ottawa, or at the office of the Assistant Receiver General at Halifax, Saint John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary or Victoria.

Interest payable half-yearly, 15th April and 15th October, in lawful money of Canada, without charge, at any branch in Canada of any Chartered Bank.

Denominations

Two-year Bonds, \$1,000

Six-year Bonds, \$500 and \$1,000

Twelve-year Bonds, \$100, \$500 and \$1,000

Cash Subscriptions

Cash subscriptions will be received only for the Six-year 4% Bonds and for the Twelve-year 4% Bonds. All cash subscriptions will be subject to allotment. Following the announcement of the plan of allotment, delivery of interim certificates against payment in full for the bonds allotted will be promptly effected.

Refunding Subscriptions

Holders of Victory Loan 5½% Bonds due 1st November, 1933, after detaching and retaining the coupon due 1st November next, may, for the period during which the subscription lists are open, tender their bonds in lieu of cash on subscriptions for a like par value of bonds in one or more maturities of the new issue and receive allotment in full with prompt delivery. The surrender value of the Victory 5½% Bonds will be as follows:

100% of their par value on subscriptions for the Two-year 3½% Bonds and the Six-year 4% Bonds.

100% of their par value on subscriptions for the Twelve-year 4% Bonds if effected on or before 16th October, and 100% of their par value after that date.

No accrued interest on the new bonds will be charged on refunding subscriptions if effected on or before 16th October. After that date accrued interest from 15th October will be charged. Holders will receive in cash the difference between the surrender value of their Victory Bonds and the cost of the bonds of the new issue.

The amount of this Loan is limited to \$285,000,000.

The Loan is authorized under Act of the Parliament of Canada, and both principal and interest are a charge on the Consolidated Revenue Fund of Canada.

The proceeds of this Loan will retire \$169,971,880 Dominion of Canada 5½% Bonds maturing 1st November, 1933, and \$40,000,000 short-term Treasury Bills. The balance will be used for the general purposes of the Government.

Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by Recognized Dealers, from whom may be obtained application forms and copies of the official prospectus containing complete details of the Loan. Applications will not be valid on forms other than those printed by the King's Printer.

The subscription lists will open on 10th October, 1933, and will close on or before 24th October, 1933, with or without notice, at the discretion of the Minister of Finance.

OCCASIONAL WIFE

By EDNA ROBB WEBSTER
Author of "Joretta," "Lipstick Girl," Etc.

SYNOPSIS

Camilla Hoyt, young and beautiful, falls in love with Peter Anson, fellow student in an art school. She is the adopted daughter of a wealthy family, and he is a poor, struggling sculptor. On their first date, Peter spends most of his money to show Camilla a good time, and then decides he must give her up because he can't stand the financial pace. A chance meeting, however, paves the way for another date. This time they walk in the park. Camilla tells Peter that she is not rich; or, at least, will not inherit the Hoyt fortune. Peter in turn confesses he is practically penniless. They fall into each other's arms. Together, in the park, Peter and Camilla try to arrive at some plan for the future. Mrs. Hoyt, Camilla's foster mother, suspects from Camilla's actions that a romance is brewing. She is anxious to see Camilla wed wealthy and handsome. She immediately begins to question the girl about the interest Peter is showing her. She manages to be present on one occasion when Peter calls for Camilla, but the latter's clever stage management thwarts her plan. At a school party, Avis Werth, another wealthy art student, who is attracted to Peter, claims to know him with her, kid? You can't afford a wife like that any more than you can own a Rolls-Royce or a yacht. The upkeep is about the same. Or do the car and the yacht go with her? "Not much. She goes with me." "Yeah? Whether thou goest, I will go—that kind of honey? Say, kid," he pushed his hands away with a gesture of disdain. "That's what they say until they get you. Then when they've slipped the collar and chain on, they make you do this

Now Go On With The Story

CHAPTER XIII

When Peter first had admitted to Gus that he was serious about Camilla Hoyt, the latter had ridiculed his friend with jeering scorn. "Burn, if you want to land in the gutter just go ahead and fall for all the swell dames that cherish your handsome mug. Be a gigolo. Let some swell dame pay your tailor and your barber and your hotel bills and lead you around by a gold leash and collar. Go on, you're built just for that. Let us men who are not so good to look at, do this work of the world and take the honors."

"That'll go for you," Peter warned, half angry. "Whether or not I love Camilla and whether or not she has money, will not affect my work in the least."

"Oh, no? Well, I've seen that work-out. And it's a wash-out, always. Forget the love-slush, kid, and be a man."

"When you find love, you are a man," Peter said soberly. "If you weren't one before, you have to be then."

"Say, what kinda true confession magazines have you been readin'? I thought I was watchin' your habits better'n that!" he jeered. To escape such tirades without an exhibition of anger, Peter had decided that if Gus knew Camilla, he would understand how serious he was about her. So he arranged for them to meet. The three had dined together one evening, in an obscure little restaurant on a side street where a bombastic sign in the window had promised, "All You Can Eat for 60c." Camilla had insisted upon going there when Peter suggested the dinner.

He had demurred. "Where," she demanded, "would you and Gus have dinner, if you were alone? Tell me the truth."

He met her eyes with an amused gleam. "Well, the best kind of place to take Gus is one where they advertise a flat rate. He's a smaller man than I am but his capacity for food is on the down and down."

"That is where we shall go then—to a flat-rate restaurant. You find one—or I shan't go anywhere with you."

That was that, and settled the matter. The walls of the restaurant which they selected were of green tile decorated with a black frieze, instead of painted murals and tapestries. The music was of clattering

Caked Udder Cleared

Experienced dairymen find Minard's particularly good for treating caked udders, bumps, blisters, swellings, hot spots in stable and house.

"ELBOW GREASE" NOT NEEDED

GOODNESS, MARY—HOW MANY RUBS AND SCRUB EVERY BIT OF THAT STONE TO BE DEAD.

BUT THERE'S NO RUB AND SCRUB TO IT. I USE GILLETT'S PURE FLAKE LYE AND WASH THE DIRT AWAY. NOTHING COULD BE EASIER.

BY THE WAY, MARY, I GOT A TIN OF GILLETT'S LYE AND IT'S FIRST-RATE. IT CERTAINLY DOES 'EAT DIRT' NO MORE RUB AND SCRUB FOR ME!

Dirt washes off without scrubbing...

WITH Gillett's Pure Flake Lye you can actually wash the dirt away. Use a solution of 1 teaspoonful of Gillett's Lye dissolved in a quart of cold water. Off come stubborn spots and stains. No rubbing, no scrubbing needed.

Use Gillett's Lye whenever there's a heavy cleaning job to do—for greasy pots, the kitchen floor, sinks and bathtubs.

Gillett's Pure Flake Lye will not harm enamel or plumbing. Use it full strength for cleaning toilet bowls and clearing drains. It kills germs, and takes away odors, too.

Order a tin today. At your grocer's. * Never dissolve lye in hot water. The action of the lye itself heats the water.

GILLETT'S LYE

Free Booklet

The Gillett's Lye Booklet tells you how to avoid drudgery by using this powerful cleanser and disinfectant for dozens of heavy cleaning jobs.

Also contains full directions for soap making, disinfecting and other uses on the farm. Ask for free copy. Standard Brands Limited, Fraser Avenue & Liberty Street, Toronto, Ontario.

EATS DIRT

nickel-silver on vitrolite tables and soprano voices of waitresses calling their orders to the cook.

"But what are you gonna do with her, kid? You can't afford a wife like that any more than you can own a Rolls-Royce or a yacht. The upkeep is about the same. Or do the car and the yacht go with her?"

"Yeah? Whether thou goest, I will go—that kind of honey? Say, kid," he pushed his hands away with a gesture of disdain. "That's what they say until they get you. Then when they've slipped the collar and chain on, they make you do this

and to know anything about Peter that he didn't tell me, himself."

"Why not?" he demanded.

"Why—that wouldn't be fair to him, it seems to me."

"You're a queer one," he said. "That's when a woman can be the most help to a man, when she knows things about him he tries to keep from her. How about that first night when he took you out and almost broke the bank tryin' to bluff you into thinkin' he was in your class?"

That was sufficient argument for Camilla. She never had overcome her chagrin over that episode. "Well, of

said. "We could sit down and rest while we talk."

Camilla knew well where the benches were, and located one easily. "Whew!" exclaimed Gus, "Society's not in my line. A little of that goes a long way with me. Of course," he amended in a lower voice, "it's different dancin' with a swell girl like you."

"Let's talk about Peter," she suggested quickly. "What do you think I should know about him, Mr. Matson?"

"So she doesn't want to hear about the benches were, and located one easily. "Whew!" exclaimed Gus, "Society's not in my line. A little of that goes a long way with me. Of course," he amended in a lower voice, "it's different dancin' with a swell girl like you."

"I dare to tell you because I'm too crazy about you to care if you see me fooled by a slicker like him!" Camilla stood up angrily. "I'll not listen to another word you have to say."

"Wait a minute," Gus pleaded in a kinder tone. "You'll be sorry as long as you live if you don't listen to me."

She hesitated. "Whether I listen to you or not, I shall not believe a word you say against Peter. So we'd better go back to the party."

"I'll take you back—when you've heard what I'm gonna say. Sit down, please Miss Hoyt." Her loyalty to Peter infuriated him, but he managed to appear calm and disinterested except in her welfare.

Camilla obeyed reluctantly, sitting rigidly on the edge of the bench, away from Gus and facing him, in an attitude of defense. She knew that Gus was not a gentleman. He was the kind of man whom no amount of culture could refine, no amount of training could develop even his talent. He scoffed at refinement and knew all there was to know, told the world, too, in no uncertain terms. She had tolerated him only for Peter's sake, who pitied him and believed that what he needed and deserved was a helping hand. Peter was so kind-hearted and glib, and this was the way he was being repaid for his charity.

(To Be Continued.)

Visitors Like Canada

British School Boys Return To England After Enjoyable Trip. A party of British public school boys returned to England after a two-months' tour of eastern Canada and Newfoundland, and praised loudly the hospitality of the Canadian people.

"We had a wonderful time and have been immensely impressed by the hospitality of the Canadian people," J. L. Guise, old Oxford Blue who led the party, told interviewers. "We all came back with a warm corner in our hearts for Canadians," he added.

Arrested For Reddies Flying

Hubert Scott-Paine, red-haired and plump, the Englishman who challenged Gar Wood, of Detroit, in the Harmsworth Cup races, was once jailed for flying an aeroplane so recklessly that people thought he was trying to commit suicide.

"I'll Not Listen To Another Word."

followin' and faked all the fancy steps they do, besides. Good-bye career, for you."

Peter did not enlighten Gus concerning Camilla's situation. That was her secret, and her private affair, anyway. So he ignored Gus's ridicule and dire prophecies, and avoided further references to Camilla as much as possible. The two had met subsequently in the routine of classes, and Gus had been affable in his attentions to Camilla at tonight's reception.

The second time he danced with her, he remarked in a confidential tone, "You're pretty keen about Peter, I guess."

"Everyone likes Peter," she agreed. "Sure, swell guy. But I mean seriously, Miss Hoyt, you and Peter have things settled pretty well, I believe."

"Did Peter tell you?" surprised.

"No, but I have two eyes, two ears and a brain that works every other impulse or so," he grinned indulgently.

Camilla laughed. "Well?"

He sobered. "I didn't ask you that just to be inquisitive. I had a reason, and a good one. I know some things about Peter that I think it's my duty to tell you. For his good and your own."

Camilla looked up anxiously, with a little puzzled frown. "I shouldn't

course, anything like that," she admitted.

"Exactly what I mean," he declared. "Why, if there is anything I can do to help Peter instead of hurting his chances, I'd like to know about it," she agreed.

"How about talkin' outside for the rest of this dance, while I tell you something, then, for your own good as well as his?" Gus invited.

Camilla consented readily. They strolled toward the lilac hedge, which was no longer fragrant with panicles of bloom, but the night was sweet and warm with the promise of summer. "There are some benches around here, somewhere," he

QUIVERING NERVES

It will give you just the extra energy you need. Life will seem worth living again.

Little Helps For This Week

"Whoso putteth his trust in the Lord shall be safe."—Proverbs 29:23. "I will cry unto God most high, unto God that performeth all things for me."—Psalm 57:2.

May all our restless hearts keep still, And wait in cheerful hope; content To take whatever His gracious will, His all-discerning love hath sent; Nor doubt our instant wants are known.

To Him who chose us for His own, As once He said, "I don't count. God has brought us into this time."

If we are not fit to cope with that which he has prepared for us, we should have been utterly unfit for any condition we imagine for ourselves. In this time we are to live and wrestle, and no other. Let us humbly look at it, and we shall not wish that the sun could go back its ten degrees, or that we could go back with it. If easy times have departed it is that the difficult time may make us more in earnest; that they may teach us not to depend on ourselves. If easy belief is impossible, it is that we may learn what belief is, and in whom it is to be placed.—F. D. Maurice.

A man's sins will not find him out as soon as his wife.

On the Side.

All hockey fans are not connected with the automotive industry, but nearly everybody in the Canadian automotive industry is a hockey fan, thanks to the General Motors hockey broadcasts. Radio accounts of National League games over local and national networks in Canada last winter were counted among the best radio programs of the year, and one of the most acceptable pieces of promotion ever carried out by a motor car company. Fans will be pleased to know that these broadcasts will be a feature of the forthcoming hockey season. There will be a national broadcast from Toronto on Montreal each Saturday night.

You can't keep 'em down! Palestine now has a woman taxi driver, Mrs. Zuckman, says The Yom Kippur Gazette, and adds "dressed in a blue and white outfit, the attention she attracts makes good business for the taxi."

A local bird-game hunter who was operating 't'other day in the Hansen Corners district, met a native who runs one of the large duck farms out there, and asked him if business was picking up. "No," answered the duckman, "picking down."

Once upon a time a genial gentleman with a boy and a girl already in the family, was expecting another arrival, and to try and satisfy the two already here, asked each to pray for the expected one to be what he or she wanted. So, when the midwife announced "it was a boy" Pa went with the news to the play-room where the youngsters were, and on the boy not seeming to be cheered when told he had a brother, Pa asked

Sports Notes, by H.C.O.

Students at the local High seem quite satisfied with the outcome of the world's series. This Puzzums seems to think this guy Hubbell is about O-Kay! Who doesn't?

One year ago on the 11th October the youths of this burg were skimming over a rubbery sheet of ice at Brandt's. It won't be long now before the daily walks to the Pond will begin again.

Prospects for another good hockey team this season don't seem any too bright. Nothing has been done, and we never know what the personnel of the team will be until around the end of November. It will, however, seem like a queer team without the one Gold Dust Twin.

No doubt, the Black and Gold will have the pick of the lot this year, as it is doubtful if the Black & White brigade will try and reorganise.

him if that wasn't what he was praying for. "No," replied the youth, "it was not. I was praying for a little black dog."

The P.D.'s Corner.

Several of my readers have asked me why I don't try my hand at verses. Well, here's a sample:

Count that day mostly lost
Whose love, descending sun
Sees Hockey season coming on,
And nothing, as yet, done!

And here's another, but for goodness' sake—be careful of your spelling:

Mary had a little bear.
She treated it so kind
That every where that Mary went
You'd see her little bear behind.

UPWARD TREND NOW UNDER WAY

Hon. E. N. Rhodes and Prominent Bankers Endorse Bennett's Figures.

The Prime Minister's confident and encouraging statement introducing the new Dominion Loan has created a very positive and favourable reaction throughout the country. Its clear-cut expression of his conviction that recovery is under way, together with the evidence he cited, have stimulated a growing sense of optimism in business circles which is reflected in the subscriptions to the New Loan. There has also been widespread endorsement of his view that, although the road may be long and progress slow, the events of the past six months appear to demonstrate with increasing clarity that the downward trend has come to a definite stop and that the upward trend is in progress.

Some examples of the comment from prominent Canadians follow. Honourable E. N. Rhodes, Minister of Finance: "As Canadians we must all share in the sense of encouragement that the Prime Minister has inspired by his statement regarding the improvement in business conditions throughout this country. It called our attention to indications of recovery that have become increasingly definite [with each succeeding month, and which have been so sustained and consistent that one can no longer doubt their significance]."

Sir Thomas White, Vice-President Canadian Bank of Commerce: "I fully concur with the statement of the Prime Minister as to the upturn which has taken place progressively in Canadian business during the past few months. In almost every branch of the country's economic life there has been manifest a slow but steady advance from the low point of last April."

Professor Gilbert Jackson, Director of the Courses in Commerce and Finance of the University of Toronto and economist of the Bank of Nova Scotia: "The very temperate statement made by the Prime Minister with reference to recent improvements in Canada is fully validated by the fact."

We Noticed This Week.

An ex-Mayor heading for the golf grounds on Monday afternoon with his bag of clubs.

"Sparkies" trying to climb a pole at the hotel corner "Thanksgiving evening."

A returned dancer falling out of an automobile at an early hour on Tuesday.

Spruce Grove "Danny" changing a tire on his Pontiac at a Main street corner on Sunday afternoon.

Stony Plain and District

Mr and Mrs A. E. Michael and family spent the holiday with friends at Halkirk.

Miss Anna Miller came up Camrose over the holiday.

Mr and Mrs Jas. Christie made a motor trip, this week, to the Ronzer farm, near Estevan.

The S. P. school board held its regular meeting Friday evening in the Secretary's office, with Chairman Wood presiding.

While returning to town on the Highway, three miles out, on Friday evening Mr. Carl Petersen had the misfortune to have his Veloc truck catch fire. With the assistance of some Highway travelers, the fire was extinguished. A local wrecker towed the truck to Stony the following day.

Hard Time Dance, Holborn Hall, Sponsored by the U. F. W. A. Barth's orchestra; great time planned, something new. BUTTER AND EGGS WANTED at The Royal Cafe.

Auction Sale on October 23.

That well known and enterprising farmer Mr. Louis Schoepf intends holding a clearance sale of his horses, cattle and implements Monday, Oct. 23. Mr. Schoepf intends moving to Wembley district. He made a personal survey, several months ago, of the district he is going to, and is said to have made a transfer of his land here for a good half section there. Mr. Schoepf expects to leave for the North immediately after the sale.

Results Prove Satisfactory.

R. J. Baird, representing the Consolidated Mining and Smelting Company, Limited, spent several days in the district checking up on the results of this year's fertilization program.

Asked by The Tribune reporter how he found condition, Mr. Baird replied that he found the results very satisfactory, much the same as that reported in The Tribune when regarding the experience of J. O. Stewart, Grande Prairie Tribune.

Sunday Concerts.

Sunday last, seen the commencement of a series of 30 Sunday concerts given by the New York Philharmonic Orchestra, broadcast over the C.R. Commission's transcontinental network. The securing of this series for the autumn and winter seasons meets widespread demand by Canadian radio listeners. The series is being secured from the Columbia broadcasting system. The concerts commence at 1 p.m. M.S.T.; each concert to be of two hours' duration.

Spruce Grove News

Rev. O. Keenan will hold services on Sunday next at the R. C. church at Mearns.

A regular business meeting of the High School club at Spruce Grove was held on the 29th ult.; the President, Miss M. Bates, took the chair. Committees were appointed for looking into possibilities of sport. The question of First Aid lectures was taken up.

The Spruce Grove teachers entertained neighboring members of their profession at an "at home" held in the teachers' lounge.

The change in the time of services at the Grove United Church have been arranged. On Sunday next service commences at 11 a.m.; Oct. 22 at 11; Oct. 29 at 2:30 p.m.

A large flock of hunters, apparently from the City, invaded this district on the holiday. Many local bird game hunters who usually go out for a Thanksgiving snoot, stayed home that day and escaped the fusillade.

Sale, Louis Schoepf's farm, Mon., Oct. 23. Horses, cattle, implements. No reserve.

Holstein Contest for Juniors.

Harry Hays, Holstein field man, has been receiving a number of inquiries from boys and girls regarding the essay competition on "Why Holstein Milk is the Best" and has asked that the following summarized information be given publicity again:

Girls and boys in Alberta 18 yrs. old and under are able to write for prizes of \$100—divided: 1st, 30; 2nd, 20; 3rd, \$15; fourth, \$10; and 5 prizes of \$5 each.

Essays are not to exceed 500 words, and will be judged 80 p.c. for material and 20 p.c. for composition. Literature on Holstein milk may be obtained by writing Harry Hays Box 118, Calgary. Essays when completed are to be mailed to J.W. Rosford, South Edmonton.

Apples, Pears, Prunes,

Expecting to arrive about the 15th a car of Fresh Okanagan Fruit, consisting of MacIntosh Snow, Winter Bananas and other varieties of Apples; Flemish Beauty Pears; Hislop Crobs, Italian Prunes, Tomatoes, Cantaloupes. Merchants of the vicinity are invited to examine goods and get prices. They will find it to their advantage before buying elsewhere. Consumers' requirements will be looked after at my old stand on 2d Street.
